All words and music written by Steve Porter

A disaster

Free

From the war in my head

Go with the flow

Hope for the best

In the next life

Is the devil me?

Is this what it is to be alive?

It's you

Like magic

Love like crazy

Making history

Not much point

Nowhere to be seen

Shining along

Stay

Sudden silence

Tender heart/feeling soul

That's my style

The emotional police

The landslide

The power of positive thinking

The rain may fall (but I don't care)

The wonderful wonder of you

Three wishes

When the demons come

You will

A disaster

Chorus: (quiet for intro, piano n' voice)

G

C

It's a disaster, yeah that's what it is, it's a disaster yeah that's what it is

D

C

G

It's not right, hey, it's not right
It's a disaster that you lost in love, it's a disaster that your jobs not enough
It's not right, hey, it's not right

G
You grab hope by the tail as it makes for the door
C D C G
Then events trip and stumble, put your face on the floor. It's all right, yeah, it's all right

The one you love went off with somebody new
Now there's no one to lay with and to see you through. It's all right, yeah, it's all right

Bridge:
Am C
The first thing I felt when I said it's all right
G D
Was a million doors open and the sun shining bright
Am C
A disaster takes me down, gotta get up and then
G D (add g note)
Accept disaster's gonna come again and again

You hold onto a dream til it comes a nightmare
You swing from a rope between hope and despair. It's all right, yeah, it's all right

All the TV strangers selling that they're ok
While the people in the street seem well on their way. It's all right, yeah, it's all right

Bridge: CHORUS + verse INST

There's a planet of people spinning off in space
We're in the middle of nowhere but we still run the race. It's all right, yeah, it's all right
Miles and miles and miles across the aching void
There's an alien in traffic feeling paranoid. It's all right, yeah, it's all right

Bridge : CHORUS + finale chorus (just piano and voice)

Free

Bass and drum intro:

I'm free, free, free as I wanna be
Free, free, free as I wanna be...

A C#m
Yesterdays gone to sorrow
Bm F#m Bm F#m
Guess I tried my best, now I'll leave it to rest
A C#m
I won't hang on tomorrow
Bm F#m Bm E (D-E)
Today is where I'll be, quiet here inside of me

Chorus:

A
Cos I'm free
C#m Bm E (D-E)
And it's beautiful to be
A
Free
C#m Bm E (D-E)
It's a place you think yourself into

Inst chorus: with violin

I'll let the sun unfreeze me
Melt hurt inside my head, so there's cool breeze instead
I'll let the days fall through me
Can't stop them anyway, so I'll smile as they drift away

Chorus: Inst chorus

My love is on the road now
Speeding through days so fast, to futures from old pasts
I'll let my arms fall around her
What took you all this time? But now that you've arrived

Chorus: x2

From the war in my head

Em G C D x2... continues...

I'm coming home, from the war in my head. A million enemy soldiers laid out dead
All of them thoughts, dressed up to kill. Put into action, against my will
So I'm coming home from the war in my head.
Inside it's blood-soaked, but I'm not dead

Em G C D.....

I guess I was just in the wrong place. Got press-ganged into moods into chaos states
I was on the front line. Where the trench is dug deep.
There's no space to crawl out, no faith worth a leap
So I'm coming home, from the war in my head
Inside it's blood-soaked but I'm not dead

I'm something else instead. Yeah, I'm alive. Unsteady on my feet but I've survived
And I can still love, if I believe I can. Yeah I can still love, if I believe I can
I believe I can, I believe I can, I believe I can

Em G C D x2

Hey! (alt: EEEEEEG x2 BbAGEGGE x2)

Once I was a stronger man- once he was a stronger man
I had a goal and made a plan- he had a goal and made a plan
I tried so hard to make it pay- he tried so hard to make it pay
But I watched my dreams all fall away- he watched his dreams all fall away

Time licked my with her deadly whip- time licked him with her deadly whip
I reeled wounded fit to flip- he reeled wounded fit to flip
Bad love made my heart turn stale- bad love made his heart turn stale
So each embrace was bound to fail- so each embrace was bound to fail
Nowhere to turn, nowhere to hide- nowhere to turn nowhere to hide
From the bomb ticking inside my mind- from the bomb ticking inside his mind

Bomb ticking inside his mind x3

Em G C D x2....

So I came home, from the war in my head, no medals for valour just me in my bed
I'll have to adapt, make a new life, keep chanting the mantra it'll be all right
So I came home from the war in my head. Inside it's blood-soaked but I'm not dead

You can't unspin inevitable webs and undo what we've done... so

Chorus:

Inst. chords x2

Hope for the best

There's a 2nd fret capo on the record...

G Em C D (just guitar)

G Em C D (with bass and drums)

G Em C D (with violin too!)

C Em Am C G Em D
On the shore I am a stone for skimming I lay low waiting for the day
To risk it all I'll walk upon the water for love and with each step I'll say..

Chorus: (twice through)

G Em
Hope for the best, hope for the best
C D
When it's all gone when all right seems wrong
G(Em D on repeat)
Hope for the best

Inst chorus x1

C Em Am C G Em D
Watching out my feathers in the weather blown so low I'm waiting for the day
To risk it all I'll find some wings to cling to for love and from dizzy heights I'll say

Chorus: Inst chorus x2

(goes gentle here...)

C Em Am C G Em D
In our hearts there is a future hiding it's a place where all loves dreams come true

Until the day we can live out those secrets I know, there's just one thing to do

Chorus: (@ slower speed) Inst x2 (@slower speed)

In the next life

All around E, A and B

Intro

Everything, yeah it came on too strong
I got trapped in limbo, I couldn't last long
Every way that I looked for escape,
Just ended up adding onto my weight

It was nice to see you, but I'll say goodbye
Maybe we'll meet up in the next life
Maybe we'll meet up in the next life

inst

Wished I'd done this and I wished I'd done that
Anything to change where I'm at
But the choices get narrow as the road gets long
There's no place to turn when you're soul is wired wrong

It was nice to see you, but I'll say goodbye
Maybe we'll meet up in the next life
It was nice to see you, but I'll say goodbye
Maybe we'll meet up in the next life

Inst

In my dreams I was somebody new
I touched and felt beauty, my heart was true
In my dreams, I was led away
Towards a light to be one of it's rays

It was nice to see you, but I'll say goodbye
Maybe we'll meet up in the next life
It was nice to see you, but I'll say goodbye
Maybe we'll meet up in the next life

Maybe we'll meet up in the next life
Maybe we'll meet up in the next life

Is the devil me?

Riff1: E G A Bb

Riff2: E Ab A Bb B A Ab F#

Riff3: as above but with A string root!

Intro: R1 x4

R1 (x4)

Is the devil me? Is my heart a cheat?
They talk and talk of choice, but say ignore that voice...
A7 B7
It says I could kill the ones that try to make me stop.

R1 (x4)

What's that whisper say? For heaven turn this way.
No, the map's upside down. Boy turn yourself around...
A7 B7
Could I close my eyes and ears and head to their lies?

R1 (x2)

I don't know. I don't know know know...
A7 B7
Could black be white and darkness really be light?

Inst, R1 x4

Hey!

R2 (x4)

It didn't used to be like this you know. I used to be an angel with an angel smile
At least that's what they told me anyway. At least that's what I wanted to hear!

R3 (x2)

R2 (x4)

And I've had angels on my arms. With hearts that fluttered like a butterfly
They wore dresses of ice and fire. But I never got burnt or frozen out...

R3 (x2)

R2 (x4)

We were doing all kinds of nice things. 'Til I got tempted by the glint in night's eye
Now see me trade it all in for a pitchfork. See my barbed tail, I shake it like a dog

B7

A7

E..... into R1

You know it's a shame. You know it's a cryin' cryin' shame...

R1

Is the devil me? Cast out and on my knees.

Maybe I'll get used to it. Time will make me used to it.

A7

B7

Could I reform, re-group change my mind and make a new start?

Is this what it is to be alive?

C F Dm G7, (all the way thru...)

Is this what it is to be alive?

Always waiting, anticipating

It's just hello and then goodbye

Loving or hating, but always waiting

But I want to seize the day

Make it all come true,

In every way

Is this what it is to be alive?

Always waiting, anticipating...

It's just hello and then goodbye

Loving or hating, but always waiting

But as it all just runs away

I'm mixed with highs and lows

That come but don't stay

And I want to seize the day
Make it all come true,
In every way

So stay, stay at the party
As long as you can
While you have the heart and mind to
Don't get lost in obscure rooms
Away from all your friends
Love is all we have to bind through
Laugh, while laughter's to be had
Take a chance and dance
'cause sorrow will hunt years to find you

hey, it's later than you think
don't play those waiting games
life's a star for you to shine through

It's you

G **A7**
Now I know it's you, it's you, it's you, you're the one for me, for me, for me.

C **G**
And I'm left standing. I can't quite believe

Em **C** **G** **Em** **C** **G**
Plenty of time I believed, I wouldn't make it. Broken hearted I grieved, had to fake it

Bridge:

A7 **C** **A7** **C**
I set my sights so high, maybe I wanted too much

A7 **C** **D*** **D7**
I thought I'd missed the chance to love for life and to live for love

Chorus:

G **A7**
Now I know it's you, it's you, it's you, you're the one for me, for me, for me
C **D*** **D7**

And I'm left standing, I can't quite believe

Now I know it's you, it's you, it's you, you're the one for me, for me, for me

And I'm left standing- I can't quite believe

Inst: **G A7 C G**

Guessed my heart had gone cold, tired of trying, my arms ready to fold, tired of lying

Bridge:

Now I know it's you, it's you, it's you, you're the one for me, for me, for me

And I'm left standing, I can't quite believe

Now I know it's you, it's you, it's you, you're the one for me, for me, for me

Now I'm left standing in the rain and smiling 'cause the pain has gone away

Now I'm left standing in the rain and smiling 'cause the pain has gone away

G, Em, D: all the way thru!

The rain may fall, but I don't care, as long as you're here, as long as I'm there
The rain may fall, but I don't care, as long as you're here, as long as I'm there

Spent so much time searching near and far
For some true love, true love, true love
I wished upon a universe of stars
Shining above, above, above

The rain may fall, but I don't care, as long as you're here, as long as I'm there
The rain may fall, but I don't care, as long as you're here, as long as I'm there
The rain may fall, but I don't care, as long as you're here, as long as I'm there

All I do I, do for love. All I do I, do for love.
What other reason is there? What other reason is there?

Hope slowly disappeared through years
How life goes on, goes on, goes on
Always empty arms and eyes near tears
It took so long, so long, so long

The rain may fall, but I don't care, as long as you're here, as long as I'm there
The rain may fall, but I don't care, as long as you're here, as long as I'm there

Where can we hide when the demons ride? Shall I close my eyes?

Where can we hide when the demons ride?

They're stuck like glue within my mind!

Where can we hide when the demons ride? Shall I shall I close my eyes?

So lets play now.

G G F# F# F F E E repeating faster and faster.... Til odd chords (C at 9th/ 7th fret)

You will

Chords: G f#note Em D C b.note a.note D, played over...

Also sounds nice transposed and with a capo on 7th fret. (G= a C shape)

No passion, no pain. My fashion's bland again
You squeeze the feeling taps so tight you will, you will...
Leave me dealing with the dark and light.
You will, oh you will...

I can't break it, I just pretend. Just fake it's on the mend
You squeeze the feeling taps so tight you will, you will...
Leave me dealing with the dark and light.
You will, oh you will...

Chorus (starts from C, a.note= Am)

You will it seems to everyone- so sure, so sure
You fill in all the space with sun, but much more
Much more much more much more
You're much more, yeah.

I can't seem to, quite believe. Touch my heart, help it grieve.
You squeeze the feeling taps so tight you will, you will...
Leave me dealing with the dark and light.
You will, oh you will...

Chorus (starts from C, a.note= Am)

You will it seems to everyone- so sure, so sure
You fill in all the space with sun, but much more
Much more much more much more
You're much more, yeah.
